

We proudly announce that we employed 180 people in one year. The Metech company now has an incredible 600 employees!

To celebrate this milestone, a party was organized with members of the Metech team.

We would like to thank all employees for their loyalty, commitment and engagement. Together we managed to achieve all the pre-set goals!

We don't stop there! We continue to work with the desire that our team grows more every day, that our ideas and creativity exceed all expectations and break all records!
